“ With both Bob and I bring at the beginning of the alphabet we were in that front part of the lab together. I remember well his willingness and soft heart to help out when it was needed and just being one of the regular guys in the class. I truly enjoyed seeing him at our class reunions and know that he was a true asset to our profession. Allyson and I send our deepest sympathy. Gary Ball ULSD 78

“ '78 certainly was a Great ULSD Class and I was proud to call Bob my classmate. I remember those 4 years with great pride and the JOY we all shared with one another! Bob was always one of the guys you could count on each day to brighten your outlook. There was a lot of support needed during those 4 years and Bob provided a great deal to everyone. He will be missed.

“ Terri, I’m so sorry to hear of Dr. B’s passing. I worked for him for the 3 years before we both retired. He was so good to me when my niece had emergency surgery right after I started working for him, letting me come and go, back and forth to the hospital and work. I’m so glad to have met you both and all the wonderful people he had working for him, that are still my friends. It was a great working environment. His patients loved him. Dr. B. will not be forgotten. My prayers go out to you and his family.
